A-GAGE® MINI-ARRAY®
Measuring Light Screen System
(MAC Series Controllers)

Supplement to MINI-ARRAY Instruction Manual 43298

The A-GAGE MINI-ARRAY Measuring Light Screen System now supports Windows® operating systems XP, Vista, and Windows 7.

The information contained in this supplement replaces the associated information in the primary manual. **It is very important to keep this supplementary document with is associated primary manual.** The primary manual contains information critical to the operation of the MINI-ARRAY system.

4. Software Installation

The Parameter Setup Software CD includes an installation program that quickly and easily loads the MINI-ARRAY configuration program into the computer. The MINI-ARRAY configuration program requires approximately 50 MB of hard disk space. Install as follows:

1. Use the Parameter Setup Software CD included with the controller, or download (www.bannerengineering.com) per the following:
   Models MAC-1, MACI-1, MACN-1, MACP-1, MACV-1: CD P/N **75877**
   Models MAC16N-1, MAC16P-1: CD P/N **75878**
2. Insert the Software CD into the CD drive.
   If the program does not auto-start, browse to your CD drive, click **Setup.exe**, then select **START,** then select **RUN.**
2. The **Welcome** dialog box will appear. Select **Next**, and follow the prompts in the dialog boxes as they appear.
4. The installation program then decompresses the files. A status dialog box monitors the progress of the installation.
5. An **Installation Completed** dialog box appears. Select **OK**. Reboot your computer for the changes to take effect.

After the software is installed, a **MINI-ARRAY shortcut icon** is placed on your desktop. Double-click on the **MINI-ARRAY icon** to launch the program, then follow the configuration and setup procedures described in Section 5 of the primary manual.
