### Technical Data

|                                  |                                                                                              |
|----------------------------------|----------------------------------------------------------------------------------------------|
| <b>General specifications</b>    |                                                                                              |
| Construction type                | rectangular                                                                                  |
| Optical elements                 | Micro-triple pyramids                                                                        |
| <b>Ambient conditions</b>        |                                                                                              |
| Ambient temperature              | -35 ... 60 °C (-31 ... 140 °F)                                                               |
| <b>Mechanical specifications</b> |                                                                                              |
| Material                         | F6000                                                                                        |
| Dimensions                       | 500 mm x 500 mm                                                                              |
| Mounting                         | self-adhesive                                                                                |
| Storage                          | Store cool and dry                                                                           |
| <b>General information</b>       |                                                                                              |
| Supplementary information        | The ambient temperature when mounting and processing the film should not be less than 18 °C. |
