

MICRO SWITCH Hazardous Area Switches

DESCRIPTION

MICRO SWITCH EX Series switches feature the smallest UL-listed housings available for use in hazardous locations. The EX Series switch cavity is designed to cool expanding gases below the ignition temperature of the surrounding explosive atmosphere. The EX Series is capable of switching up to 20 amps while providing ample wiring space for ease of installation. Single and double conduit openings are available. Dual conduit openings may allow for through wiring of multiple switches. The EX Series can be mounted from any of the switch's four sides.

VALUE TO CUSTOMERS

- Honeywell has over 80 years of switch manufacturing experience covering most environment types
- Proven technology plus superior quality and service are offered world-wide. The EX Series holds multiple agency approvals, including CE, IEC Ex, UL, CSA, INMETRO, and ATEX directives
- Multiple actuator options make the EX Series a good choice for indoor explosion-proof applications
- Smallest UL-listed, power-load carrying switch available for use in hazardous locations

FEATURES

- Compact and rugged housing
- Ample wiring space that eases installation time
- Four-sided mounting with optional mounting bracket
- Dual conduit openings on select models
- Broad range of actuator styles available in pin plunger and rotary configurations.
- Switching capacity from 1 A for low energy loads, up to 20 A for most industrial electrical loads
- Rotary actuators are field adjustable for quick set up and application adaptability
- Roller lever actuators are adjustable through 360° of rotation
- 1EX and 2EX listings have dual conduit openings enabling "wire through" or allowing the user to split the wiring of a double pole switch with one pole exiting each side
- Manufactured for harsh and explosive environments
- International approvals for use around the world

APPLICATIONS

- Industrial paint booths
- Petroleum and chemical plants
- Processing facilities

PORTFOLIO

The EX Series is part of the MICRO SWITCH family of hazardous area switches that include the BX, BX2, LSX, VPX, CX, GSX, GXS and 14CE100 Series switches. To view the entire product portfolio, click [here](#).

MICRO SWITCH HAZARDOUS AREA LIMIT SWITCH, EX SERIES

TABLE 1. SPECIFICATIONS

Characteristic	Parameter
Product type	MICRO SWITCH™ hazardous location limit switches
Actuators	<div> overtravel top plunger side roller lever one-way roller lever </div> <div> adjustable roller lever rod lever manually activated paddle </div> <div> adjustable rod lever with one-inch nylon roller </div>
Circuitry	SPDT, DPDT
Electrical	1 A, 3 A, 5 A, 10 A, 15 A, and 20 A
Housing material	Aluminum die-cast
Termination types	1/2-14 NPT conduit, preleaded
Sealing	NEMA 1, 7, and 9, UL listed, and CSA certified: Class I, Div.1 & 2, Groups B*, C, and D [*Group B - only as noted in order guide] Class II, Div.1 & 2, Groups E, F, and G
Operating temperature ¹	-40 °C to 71 °C [-40 °F to 160 °F] *High temp models available up to 204 °C [400 °F] (refer to order guide on pages 6 and 7)
Agency approvals and standards	IEC Ex, ATEX (CE), UL, CSA, INMETRO
UL listed	#E14274
CSA certified	#LR57324
INMETRO certified	TÜV 14.0554 X
ATEX directive ²	KEMA 04ATEX2312X
IEC Ex certified	KEM 08.0012X
UNSPSC code	302119
UNSPSC commodity	302119 Switches and controls and relays

¹ Refer to order guide

² Most models, refer to individual specifications for selected catalog listings

WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship during the applicable warranty period. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgment or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items that Honeywell, in its sole discretion, finds defective. **The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.**

While Honeywell may provide application assistance personally, through our literature and the Honeywell web site, it is buyer's sole responsibility to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this writing. However, Honeywell assumes no responsibility for its use.

⚠ WARNING PERSONAL INJURY

- DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

Failure to comply with these instructions could result in death or serious injury.

⚠ WARNING MISUSE OF DOCUMENTATION

- The information presented in this product sheet is for reference only. Do not use this document as a product installation guide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.
